This is to certify that heat number A88569 is in conformance with the required specifications.

APPROVED BY

Supervisor, Chemistry Laboratory and Billet Inspection

ISSUED BY QUALITY ASSURANCE:

Date: 19 Nov 2007

Specification Clerk

Heat analysis obtained by test methods ASTM E415 and ASTM E1019.

[&]quot;Minimum and maximum refer to the required customer specification.

This is to certify that the material is in conformance with the required specifications. Radioactive emissions are at background levels.
