Heat Analysis														
	C	Mn	P	S	Si	Cu	Ni	Cr	Mo	Sn	Al	N	B	V
Spec. Min*	.15	.60								.019	.003	.0083	.0000	.000
Actual	.16	.65	.012	.014	.17	.21	.12	.170	.026					
Spec. Max*	.20	.90	.040	.050										

This is to certify that heat number A92770 is in conformance with the required specifications.

Heat analysis obtained by test methods ASTM E415 and ASTM E1019.

\*Minimum and maximum refer to the required customer specification.

This is to certify that the material is in conformance with the required specifications.

Radioactive emissions are at background levels.

APPROVED BY :

*W. Berg*

Supervisor, Chemistry Laboratory and Billet Inspection

This certificate shall not be reproduced except in full, without the written approval of Ivaco Rolling Mills LP, a Heizo Company. This certificate is not to be used by the client to claim product endorsement by NVLAP or any agency of the U.S. government. NVLAP only covers the chemistry presented within this certificate. All other data is not covered by the NVLAP accreditation.

ISSUED BY QUALITY ASSURANCE :

Date: 22 Aug 2008
