

	Section 26: IMDS DATA SUBMISSION	Ref: TM-QA-DO-06-329-E
		Revision Level: 1
		Date: 03/04/05
		Page: 1

PURPOSE: To explain how to meet the Provisional Approval requirement for submission of IMDS data.

SCOPE: Applies to all component parts that make up TMI mass production parts.

EXPLANATION: IMDS data provides substance breakdowns necessary to safely recycle vehicles at the end of their useful lives.

REQUIRED DOCUMENT(S):

Approval Request Form – TMI APPENDIX 14A
Compliance Connect Spreadsheet – WWW.AIAG.ORG

RESPONSIBILITY:

1. The supplier is responsible for submitting IMDS data to TMI for all new and revised production part numbers.
2. The IMDS data must be submitted using the latest version of AIAG’s Compliance Connect Spreadsheet. The spreadsheet can be downloaded from AIAG’s website (**WWW.AIAG.ORG**, “Latest Products”, “Free! ELV”). Directions for completion of the spreadsheet and examples are included on tabs located in the spreadsheet.
3. Per Compliance Connect directions, upon completion of the last data entry tab, click on “Check Data and Export”. The file will automatically be saved under a unique filename. That file must be sent to **ASG-IMDS-DATASHEETS@JCI.COM** and the filename must be on the supplier’s Approval Request Form before TMI Plant QC will give Provisional Approval. For carryover parts, use the filename originally submitted for that part.
4. For questions regarding reporting requirements and for technical support with the spreadsheet, please contact the JCI Help Desk at **AG-IMDS-HELPDESK@JCI.COM**.
5. Compliance is required for provisional approval and payment of tooling invoices.

REVISION	REVISION DATE	SECTION	UPDATE DESCRIPTION
